Моющие средства для предварительной мойки

PREWASHING DETERGENTS - GREEN POWER

LIQUID ALKALINE DETERGENT WITH RINSE AID FOR THE PROFESSIONAL WASHING OF MOTOR VEHICLES

016GRPOTN20

GREEN POWER is a liquid detergent with rinse aid, specific for cars professional washing. Thanks to its optimal foaming properties present in its formulation, it guarantees a perfect cleaning, re-giving to the bodywork its natural brightness.

According to the alkaline characteristics of the product, do not let GREEN POWER dry on painted surfaces.
On cars with overheated bodywork, cool down with cold water before proceeding with the application.

PREWASHING DETERGENTS - STORM 08

CONCENTRATED ALKALINE DETERGENT FOR VEHICLE WASHING

016STRMTN20

STORM 08 is a concentrated alkaline detergent for the washing of vehicles. Its special formulation, with high cleaning power, contains dirt sequestrants and dirt suspending row materials that increase the cleaning power with hard waters. Its optimum for the deep cleaning of trucks and heavy vehicles as well. It is ideal for self-service carwash, low-pressure self-washing, tunnels and portals.

Do not let it dry on surfaces: work possibly in the shadow.

PREWASHING DETERGENTS - TORNADO

Alkaline detergent for the external washing of cars and industrial cleaning

016TORNTN20

TORNADO is a specific product for the external washing of cars with nebulizing systems or hydrocleaner. Furthermore having excellence cleaning, sequestrating and dirt suspending characteristics, it is easy to rinse. It is ideal for the cleaning of cars. It is recommended for the pre-wash of motor vehicles before acceding in the tunnel as well.

Do not let rinse the product on the surface; work possibly in the shadow. Be careful to nebulize homogeneously bottom-up. On unheated surfaces, cool the bodywork before nebulize the detergent solution. It is recommended to respect the use dilution.

PREWASHING DETERGENTS - TEKNOALL CLEANER

Alkaline detergent for vehicles

016TKCLTN20

An alkaline detergent for the washing and pre-washing of vehicles, ideal for tunnel or in-bay car wash systems. Excellent as a summer-month pre-wash spray. Its formula includes high, effective detergent properties. This product's notable sequestrant and anti-settling properties for dirt ensure impeccable and completely safe cleaning results for vehicle surfaces. Also ideal for high-pressure self-service bays.

Do not use the product neat and avoid long periods of contact of concentrated solutions on aluminium and light alloys. Do not spray concentrated solutions on to painted surfaces.

PREWASHING DETERGENTS - VAP POLVERE PLUS

A detergent which is easily dissolved in water

016VAPL0025

VAP POLVERE PLUS is a foaming detergent which is easily dissolved in water. Particularly effective in the removal of dirt from vehicle bodywork and metal surfaces in general. It is also ideal for the hot water washing with a high-pressure water jet of cars, heavy-duty vehicles, agricultural machines, excavators, motorcycles etc. Also suitable for plastic-coated and glass fibre surfaces. Ideal for systems with hopper dosing.

With water of a hardness superior to 35°F, it is advisable to set the water temperature to a level no higher than 35°C in order to avoid excessive lime scale deposits. Close the package well after each use to avoid the product absorbing humidity.

PREWASHING DETERGENTS - GO-GO INSECT

Detergent for the removal of insects from bodywork

016GOINTN20

The countless types of residue left on car parts such as windows, bumpers, wing mirrors and radiator grill, if not pre-treated with a suitable product, can prove difficult to remove during washing, and can also prove damaging to the bodywork. GO-GO INSECT is a specific detergent for the removal of insects from bodywork. It efficiently removes the dirt caused by insects, plant secretions, bird excrement and combustion and fuel residue etc. from the windscreens and bodywork of vehicles. It is an excellent anti-staining detergent to be used for pre-washing during the summer months.

It is advisable to not leave the product to dry on bodywork in order to avoid the risk of stains forming on the paintwork.

PREWASHING DETERGENTS - VIRTUAL 3000 SOFT

Alkaline concentrated detergent for the external washing of vehicles through nebulizer system or high pressure washer

016VIRSTN20

VIRTUAL 3000 SOFT is a concentrated product ideal for the external washing of vehicles through nebulizer system or high pressure washer. As well as its notable detergent, sequestrant, shining and anti-settling characteristics, is also easy to rinse and, thanks to its prolonged wetting action, it has anti-stain properties. Specially for the removal of stubborn dirt typically caused by heavy-duty traffic (smog). Eccellent for the pre-washing of cars before entering in tunnel system car washes.

Do not allow the product to dry on surfaces; work, when possible, in the shade: spray evenly from below in an upwards movement. On heated surfaces proceed with cooling with water before spraying the detergent solution. It is recommended to respect the dilutions of use. Do not use in concentrated solution on aluminium or light leagues.

PREWASHING DETERGENTS - TYPHOON 05

Liquid detergent and shiner

016DETYTN20

Some products used in car wash systems can cause problems with dosage pumps. TYPHOON 05 is the ideal product to avoid these problems, guaranteeing long life for dosage pumps. TYPHOON 5 is a slightly viscose alkaline liquid detergent and shiner for the washing of vehicle exteriors and for industrial cleaning. Dosed with foaming equipment, it creates an abundant and persistent foam. The particular additives contained guarantee perfect cleaning, restoring a natural shine to the bodywork.

Due to its alkaline properties, TYPHOON 05 solutions should not be left to dry on surfaces.

PREWASHING DETERGENTS - ALL ECOWASH

Detergent for the cleaning of vehicles.

016ALEWTN20

The use of products containing a high percentage of surfactants hinders the discharging of water into mains sewer systems. For this reason, many car washes require solutions which can ensure that they stay within parameters. ALL ECOWASH is an alkaline product formulated with surfactants of a very low environmental impact, which are easily and completely biodegradable, derived from palm and coconut oil. Its formula ensures excellent cleaning results in all self-service systems: high-pressure self-washing systems, bay systems and tunnels. Ideal for the prewashing and washing of vehicles.

Due to its alkaline properties, ALL ECOWASH solutions should not be left to dry on surfaces during the summer months.

PREWASHING DETERGENTS - ULTRAGREEN

Liquid detergent with rinse agent

016GRENTN20

Certain products used in car washing plants can cause problems with the dosing pumps. ULTRAGREEN is the ideal product for avoiding these problems, ensuring a long life to the dosing pumps. ULTRAGREEN is a detergent with alkaline liquid rinse agent, slightly viscous, high concentrated, for the external washing of cars and the industrial detergency. Dosed with foaming equipment, it creates an abundant and persistent foam. The particular adjuvants contained into ULTRAGREEN ensure a perfect cleansing, giving back the natural shininess to car bodies.

Due to its alkaline characteristics, do not let dry ULTRAGREEN solutions on surfaces.

PREWASHING DETERGENTS - CAR-NET

Highly concentrated alkaline detergent for car cleaning

O16CARNTN20

Car-net is a highly concentrated alkaline product specifically for the external cleaning of vehicles. This detergent ensures efficient cleaning of the vehicle and a shiny finish, thanks to the marked cleansing, sequestrant and suspending characteristics of the product against dirt. Its special formulation also facilitates the rinsing of the vehicle, optimising time and guaranteeing excellent results. This product can be used under low pressure via drawing in self-service bays, directly with a high-pressure jet, in tunnel and in-bay car washes. If used with a spray, it is an excellent pre-wash detergent for traditional systems.

In order to guarantee the best results, it is recommended to spray the product evenly from below, moving upwards, working, if possible, in the shade. In the case of hot surfaces, cool with water before spraying the detergent solution.
