DEODORANT - ODOUR NEUTRALIZER

Odour neutraliser for interiors

016ONEU7512

Closed, poorly ventilated interiors such as trains, undergrounds, trams and buses are just a few of the places where the problem of odours is all too well known. ODOUR NEUTRALIZER is a liquid deactivator for the effective breaking down and complete neutralisation of odours. The molecules which cause odours are captured by the formula's special components and neutralised in order to get to the root of unpleasant smells such as: smoke, refuse, toilets, industrial processes etc. The formula can also be used on fabrics and materials in general. Sprayed in the air, it easily eliminates unpleasant odours of all kinds, leaving a pleasant fresh and clean fragrance. Its special formula contains an active ingredient (quaternary ammonium salts) which ensures the deodorization of the air.

Sprayed into car interiors, it refreshes fabrics and leaves a delicate, long-lasting perfume.
