Низкощелочные моющие средства для МОЙКИ МОТОЦИКЛОВ

PREWASHING DETERGENTS - AZ SOFT

Low alkaline detergent

O16SUSFTN20

With the coming of summer season and high temperatures, carbodies need more care and attention. The high temperature of carbodies makes them more delicate and subjected to stain and persistent spots due to inadequate products for prewashing and washing. AZ SOFT is a detergent for prewashing and washing of carbodies and motorcycles. The absence of free alkaline salts imparts to the product the particular stain-resistant properties and, for this reason, it is the most suitable detergent during the summer season. AZ SOFT is also used on carbody paints that are easily alterable from common alkaline detergents. It is capable of preserving the brilliance of carbodies, even after frequent washing. It contains surfactants that have a better environmental impact and it is free of alkaline salts which are strongly sensitizing to the skin and mucous membranes of the users.

It is usable in every carwash plants. The product has been formulated with surfactants having high foaming properties, ideal in snow effect plants.
