Средства для удаления известкового налета

кристаллизатор мрамора - SUNSHINE

Marble and calcareous stones crystallizer

016SUNS7512

SUNSHINE vitrifies giving a mirror-effect extreme shine to all acidic-sensible surfaces, like marble, palladiana, travertine, stone and calcareous surfaces. It chemically transform the marble calcareous surface, modifying and hardening it structurally. Restores dull marble floorings ruined by foot traffic to their original shine, even hiding and removing fruit, coffee etc. stains. Ideal for marble and calcareous stone floors and surfaces of offices, hotels, buildings, airports, churches, hospitals, banks etc.

The daily cleaning of crystallized surfaces of leaded marble must be performed with neutral detergent with low residuality.

Deeply wash and/or dewax the floor with K100 or ALLSTRIP. Let the surface perfectly dry. Wipe with monobrush with steel wool pad on a portion of 1m², lightly warming the surface. Shake the SUNSHINE bottle and spray 10-20ml per m². Wipe immediately with the monobrush to uniformly apply the product, and continue wiping also after the drying until the surface is shining. Proceed m² by m². Turn or substitute the steel wool pad frequently, and ensure it is not rusty. Dry-polish the whole surface with the proper polishing pad or with steel wool pad. Sweep away steel wool residues.

12 bottles of 750ml

Удаление известкового налета - FREE KALC

Descaling detergent for hard surfaces

016FREE0020

The environment of hotel bathrooms, public structures and community in general, due to the constant contact with water, it is particularly subjected to scaling caused by the deposition of limestone. FREE KALC is a perfumed descaling detergent based on

organic acids ideal for the removal of limestone and tartar residues from bathroom fitting, toilets, showers and hard, painted, stoneware surfaces. The citrus fragrance, with wood and flowers notes white musk fragrance of FREE KALC will allow a better use of the product keeping in the environment an exceptional sensation of clean and hygiene. Ideal for hotels, restaurants, retirement homes, offices, sports facilities, community in general and industries.

FREE KALC can be used on chromed or steel surfaces, according to following the indicated way of dilutions.
Avoid any contact with marble and every limestone surfaces.

удаление известкового налета - DESCAL SUPER

Descaling deoxidizer

016SUDE0020

The accumulations of limestone cause different inconvenient, including: waste of energy due to their thickness that decreases the thermal exchange; corrosion of materials; clog of filters, pipes, pumps, tanks; diminution of the duration and operation of the

equipment; deterioration of hygienic conditions of the surfaces. DESCAL SUPER is a specific product for the dissolution and removal of inorganic residues such as oxides, limestone, rust from surfaces of industrial plants and equipment of the food industry. It allows the descaling on materials such as steel, iron, copper, brass and aluminum. Besides its descaling power, DESCAL SUPER has detergency properties able to remove greasy residues that would obstruct the dissolution of limestone deposits. It can be used in various production companies in order to descale pipes, boilers, evaporators, heat exchangers, radiators, hot water heaters, cooling systems, power stations, pressure washers, etc.

Do not use on surfaces sensible to acidity such as marble.
