Защитные пропитки

Защитные пропитки - P70 TEXTILE PROTECTOR

Anti-stain protector for fabrics

016P0700012

The highly absorbent characteristic of fabric surfaces often leads to problems and complications in the removal of dirt and stains which often require time and money to remove. P70 TEXTILE PROTECTOR is a penetrating anti-stain, oil- and water-repellent

In order to guarantee the best possible protection for treated surfaces, it is advisable to repeat the operation regularly. The duration of the treatment varies from 6 months for items subject to intensive use, to 1 year. Resistance to washing: approximately 5 wash cycles with products that are not excessively alkaline and with temperatures no higher than 40°.

Защитные пропитки - P100 PROTECTOR

Anti-stain protection for siliceous, glass and ceramic surfaces

016P1000012

Water which comes into contact with glass, ceramics and all siliceous surfaces in general can, if not quickly removed, leave lime scale deposits which adhere to the surface, causing unattractive marks on windows and tiles. P100 PROTECTOR is a special formula for the protection of siliceous surfaces such as glass in doors, shower stalls, ceramic tiles, ceramic bathroom fittings and toilets, shop displays etc. P100 PROTECTOR is a nano-technological formula with a base of partially condensed silanes and

The duration of the treatment is, on average, one year. P100 PROTECTOR is particularly recommended for use in spas and thermal venues where water hardness and the presence of dissolved mineral salts favours the accumulation of lime scale deposits on surfaces.

Защитные пропитки - P28 EMULSIO

Stain-resisting oil, oil-repellent emulsion 016P28E0010

P28 EMULSIO stain-resisting and repellent oil for stone and porous surfaces, based on aqueous emulsion of acrylic fluoride copolymers. This colourless product is ready to use and easy to apply, it quickly dries and deeply penetrates into the pores and veining, ensuring the “grip” effect also in case of wet, avoiding dangerous slipping. The special formulation easy to clean, impedes to dirt to anchor to surface, facilitating stains removal also in the following ordinary cleaning operations. P28 EMULSIO

P28 EMULSIO ensures to the treated surface an efficient protection for over ten months. Odourless product, free of surfactants, based on aqueous emulsion. It is ideal for the treatment of internal surfaces and indoor areas.

Защитные пропитки - P28 PROTECTOR

Anti-stain oil and water repellent sealer

016P28P0010

Particularly porous external paving can, over time, suffer from damage and alteration of colour due to its capacity to absorb dirt and other substances derived from weather conditions. P28 PROTECTOR is an anti-stain, oil and water repellent sealer product for stone and porous surfaces with fluorinated copolymers. The product is ready to use and easy to apply; it dries quickly, penetrating deep into pores and veins. It creates an invisible film on the surface which is resistant to UV radiation and has long-

P28 PROTECTOR guarantees effective protection for treated surfaces for a number of months. Also particularly suitable for the preservation of antique paving.
